ABOUT

Hi, I'm Aditya Dey I'm currently a final-year Computer Engineering student at LD College of Engineering. With a strong passion for cybersecurity and ethical hacking, I love exploring the intricacies of secure systems and staying updated with the latest advancements in technology. My goal is to contribute to a safer digital world while constantly challenging myself to grow and innovate in this field.

PROJECT

- **Personal Portfolio Website**
  link: https://gentle-crisp-7c0221.netlify.app/
  A personal portfolio website showcasing projects, skills, and contact information with a clean, responsive design, optimized for both desktop and mobile devices.

- **FRIDAY: AI-Powered Security Assistant**
  link: https://github.com/Adityadey1/securitybot
  An AI-powered security bot inspired by JARVIS, capable of normal conversation, task automation, DNS record fetching, and password generation, built using Python for interactive assistance.

- **Keylogger for Monitoring and Security Auditing**
  link: https://github.com/Adityadey1/keylogger
  A Python-based keylogger for ethical monitoring, capturing keystrokes in real-time and storing them securely for analysis and auditing purposes.
